AN APPEAL FOR AID

Government Takes Prompt Measures to Relieve Distress in Porto Rico.

SECRETARY OF WAR ROOT

Says There Is Not Less Than 100,000 Inhabitants of the Island Whose Condition Is Absolute Destitution. Now Estimated That at Least 500 People Were Killed by the Storm.

Washington, Aug. 12.—The war department yesterday took prompt measures for the relief of the hurricane sufferers in Porto Rico. When the press dispatches and General Davis' advice made known the extent of the disaster steps were immediately taken to send supplies and the transport McPherson was ordered put in readiness to sail from New York on Monday next. She will carry rations and other necessities. Secretary of War Root yesterday afternoon sent the following appeal to the mayors of all cities of more than 15,000 population:

"Sir—The governor general of Porto Rico confirms the report that upon the 8th inst., a hurricane swept over that island, entirely demolishing many of the towns, destroying many lives, and reducing, so far as he can estimate, not less than 100,000 of the inhabitants to the condition of absolute destitution, without homes or food. Unless immediate and effective relief is given these unfortunate will perish of famine."

"Under these conditions the president deems that an appeal should be made to the humanity of the American people. It is an appeal to their patriotism also, for the inhabitants of Porto Rico have freely and gladly submitted themselves to the guardianship of the United States and have voluntarily surrendered the protection of Spain, to which they were formerly entitled, confidently relying upon more generous and beneficent treatment at our hands. The highest considerations of honor and good faith unite with the promptings of humanity to require from the United States a generous response to the demand of Porto Rican distress."

"This department has directed the immediate distribution of rations to the sufferers by the army in Porto Rico, so far as it is within the power of the executive, but in the absence of any appropriation we must rely largely upon private contributions."

"I beg that you will call upon the public spirited and humane people of your city to take active and immediate measures in this emergency. The government transport McPherson will be sent directly from the port of New York to Porto Rico on Monday, the 14th inst., to carry all supplies of food which can be obtained. Further transports will be sent at future dates, of which public notice will be given."

"Any committee charged with the raising of funds will receive full information and advice upon communicating with this department."

A report has been received at the war department from an officer at San Juan, Porto Rico, estimating that the number of killed amounted to 500. The same officer says a very serious condition of affairs exists at Ponce.

WATSON'S CABLE

Tells the Navy Department of the Shelling of San Fernando.

Washington, Aug. 12.—The navy department late yesterday afternoon received the following cable from Admiral Watson relative to the burning of the Saturnus by the insurgents, which was reported in the press cable, and also the shelling of San Fernando, near Manila:

"On Aug. 2 gunboat Pampanga, Lieutenant Junior Grade McNamee, patrolling Lingayen Bay, Luzon island, found the American steamer Saturnus on the beach, San Fernando insurgents having robbed cargo. Naval Cadet Woodward, in a dingy, secured hawser around rudder post of the steamer under a musketry fire from strong intrenchments. Pampanga returned hot fire, but could not move the steamer. Insurgents burned vessel."

"Have sent the Yorktown to punish piratical act. On Aug. 7 the Yorktown and Concord and the gunboats Callao and Pampanga entered port at San Fernando and found entrenchment encircling waterfront fully armed. Non-combatants were seen thronging substantial warehouses on the north side of the town. The vessels refrained from firing in their direction. The first shell from the Yorktown was answered without delay by field guns and musketry fire; the vessel shelled the town 45 minutes. Extent of damage cannot be ascertained. Pampanga remained here, the Concord and Callao are also patrolling Lingayen Bay, Luzon island, the Yorktown returned to Manila. I have sent particulars by mail."

"Climate in Manila delightful now; no vessel can be detached, all are needed to prevent unauthorized trading."

FORMED A COMPACT

Windowglass Workers and Independent Concerns to Work Together.

Pittsburgh, Aug. 12.—Word is brought from Philadelphia, where the windowglass workers have just closed their convention, that because of their failure to arrange for a conference with the combine manufacturers, they have entered into a compact with the independents. The agreement is that the workers shall receive the advance of 7 1/2 per cent which they have been contending for, they in return to work hand in hand with the independent manufacturers. More than 25,000 glassworkers will be affected by the new arrangement, which practically means a fight against the combine.

SANTA RITA

Taken Without Resistance From the Philippine Rebels.

Manila, Aug. 12.—10:40 a. m.—Advices from Calcut under date of Aug. 11 report that General MacArthur took the Ninth regiment, a battalion of the Twenty-second and a detachment of the First artillery from Calcut to Santa Rita, near Bacolor, yesterday. The entrance of the troops into the town was not opposed, the insurgents fleeing as the Americans approached. The troops had a hard march of 10 miles, in some places being obliged to wade waist deep in water. Many were exhausted. The troops spent last night in Santa Rita and proceeded on the march today.

Lieutenant Hazard of General Wheaton's staff, with five scouts from the Iowa regiment, marched up the railroad into Angeles. A small force of rebels attacked the scouts outside the town and Lieutenant Hazard sent for reinforcements. General Wheaton's orders, however, were that the Americans should not occupy Angeles, and a force of 600 or 700 rebels appearing, Lieutenant Hazard retired.

\$11,000 REWARD

Louisville Police Believe They Have James Dunham, a Murderer.

Louisville, Aug. 12.—The local police are beginning to figure on the \$11,000 reward outstanding for the arrest of James Dunham, the sextuple murderer, wanted in California. About a week ago a suspect was arrested here and a photograph was sent to the California authorities. Late yesterday the police received the following telegram from Sheriff R. J. Langford at San Jose, Cal.: "Your suspect has strong resemblance to Dunham. Hold for further investigation. Has he scar in the edge of hair over right ear?" The prisoner has the scar indicated. When arrested he gave the name of E. C. Netherfield, and claimed to be from Ohio.

STORM AT SANTIAGO

Haviest in Fifteen Years—Good Deal of Damage Done.

Santiago de Cuba, Aug. 12.—This city has just experienced the heaviest storm in 15 years. Rain and wind were almost incessant for several hours. Several houses on streets in the lower portion of the city were undermined and a good deal of damage, though nothing very serious, was done elsewhere. In the American camp nearly half the tents were blown down.

The Ward liner Santiago, Captain Leighton, from New York, Aug. 7, via Nassau, where she arrived Aug. 7, reached here yesterday, having met with severe weather in the Windward passage. The heavy seas damaged the bridge somewhat.

No new cases of yellow fever have developed according to the official reports.

THE SECRET DOSSIER

Result of Its Examination Is Quite Satisfactory to the Dreyfusites.

PUBLICITY OF DOCUMENTS

Would Mean the Pillory of General De Boisdeffre and Captain Dreyfus Cleared in the Face of the World. The Military Caste Furious—Prominent German Prince Involved.

Rennes, France, Aug. 12.—All the notable Dreyfusites here are satisfied with the result of the examination of the secret dossier. They have urged their newspaper friends in Paris to clamor for full publicity, knowing that if it be granted, the military and nationalist parties would be utterly disgraced.

They are convinced that the diplomatic and war office dossiers team with forgeries. Of course, their impressions are derived from the five counsel present at the examination of these precious papers.

Publicity would mean the pillory for General De Boisdeffre and company. They would be pelted with their own foul eggs, while Captain Dreyfus would be cleared in the face of the whole world.

The military caste here is furious at the turn things are taking. The correspondent of a Russian paper said yesterday that in a cafe frequented by officers he unfolded the Dreyfusite Aurora

CAPTAIN DREYFUS

to read. All the military men near by scowled at him in a marked manner, and, after coughing and otherwise showing their disapproval, went in a body to the other end of the cafe, as if the Russian were a leper.

All the officers at the military club came out on the club balcony when a bundle of Dreyfusite journals was being burned in the streets and they approved the performance by unmistakable gestures. The wisdom of the order forbidding officers not attached to the garrison to stay here during the trial is now apparent.

In uncanny imaginings, the secret military dossier, it is said, exceeds the worst topshelf literature. To secure secrecy the scribes who worked for Henry and his friends did not hesitate to forge letters from high diplomatic personages. There are nearly a score of love letters from a lady high in the diplomatic sphere supposed to have been seized in the dispatchbox of an embassy during the transmission to Berlin. The person whom she is represented as having had as a correspondent was an attaché of an embassy there and much younger than the lady, who is made to appear impassioned quite an Eloise. Of course, she mentions the Dreyfus affair and asks the attaché to help to whitewash the unfortunate captain.

M. Jaures expects that there will be a great exposure of a conspiracy against the republic and that the high-handed measures of the present government against certain generals will be more than justified by the coming revelations. The examination of the diplomatic dossier was concluded yesterday. Dreyfus, on leaving the lieutenants, looked brighter than he has ever previously appeared.

M. Demange has lost no opportunity to conciliate the seven judges. He has let himself be interviewed in order to say nice things about them. That nature advocate understands human nature. He remembers that the seven are ignorant of law, always ready to sacrifice equity to authority, quick to scout at the rules of evidence and are members of a caste who think they have been attacked by Jews, cosmopolitans and foreigners. Some of them boast of not having read the report of the inquiry before the court of cassation because they thought it published at the cost of a syndicate and intended to cast odium on the army.

It is learned that the secret dossier contains shocking reports of the spies of a German prince, who has fled high situations under the empire during the last 20 years, and one of them in Paris, a city he often visits. There is only one prince answering to this description, Chancellor Von Hohenlohe.

The police spies who informed the intelligence department at the war office of the prince's secret doings did not attempt to establish a connection between them and the Dreyfus case.

English view. London, Aug. 12.—The correspondent of The Times at Rennes says: "Four days of examination have revealed the utter flimsiness of the secret dossier. The diplomatic dossier contains proofs of Esterhazy's treason, attested by foreign agents."

BRADSTREET'S REPORT

Heavy Corn Crop—Spring Wheat. Hides, Leather and Wool.

New York, Aug. 12.—Bradstreet today says: Crop reports and probabilities have constituted an important contribution to general trade and business advices this week. Among the unquestionably favorable features have been the reports regarding the corn crop, government estimates pointing to a yield of probably 2,300,000,000 bushels, a heavy increase over last year and almost within touch of the record total of 1895. Spring wheat indications apparently bear out earlier trade advices in showing a decrease in condition during July. The reduction of 25,000,000 bushels in the probable outcome estimated, however, still allows of a total wheat crop of 535,000,000 bushels, considerably smaller, it is true, than last year's, but, with the exception of 1893 and 1891, the heaviest recorded.

Hides, leather, boots and shoes are systematically strong, and at a convention of shoe manufacturers at Philadelphia this week, a practical agreement to advance prices of the finished product was reached.

Wool is firm on steady manufacturing demand, particularly for the finer grades of domestic, and advices from the manufacturing industry are generally favorable.

Lumber is firm, as is also sugar, for which an unprecedented demand is looked for during the current canning season. The outlook in the canned goods trade generally is reported very good.

Business failures for the week in the United States number 150, as compared with 156 last week, 157 a year ago and 214 in 1897.

CANADIAN SURVEYORS

Party Reported at Bennett Lake to Locate Alaska Boundary Line.

Seattle, Wash., Aug. 12.—Advices from Skagway, Alaska, say a Canadian party of surveyors are at Bennett Lake to locate the boundary line between British Columbia and the northwest territory west of Hootalinga river. The party consists of 10 men, who will commence operations on the Taku arm of Lake Tashli. The actual location of the line will be of great benefit to the miners of the district as there will be no questions arising as to the size of the placers and quartz claims as well as the place of recording them.

According to advices received from St. Michael, Alaska, there seems to be no chance for apprehension in the case of the steamer Indianapolis, which a report from Dawson has among the missing with 38 persons on board. Parties arriving from St. Michaels last night state that the Indianapolis was anchored alongside the steamer Illinois when they left.

CUBAN SITUATION

As Viewed by a Havana Paper That Favors a Protectorate.

Havana, Aug. 12.—The Nuevo Pais says: "The Americans can live without Cuba, but Cuba cannot live without the Americans. The island is financially dependent upon the United States, and political dependence follows as a matter of course. What could Cuba offer the United States which could not be demanded by the Americans as a right? We do not know how Cuba could expect concessions in the matter of sugar tariffs if she should not offer the right of protectorate as a basis of reciprocal arrangement. The United States, in dealing with Cuba, will adopt the Roman custom, 'Do Des' (I give that you may give), without a protectorate neither Americans nor the English will invest much money in the island."

Candidate For Commander-In-Chief

Cincinnati, Aug. 12.—Colonel W. C. Johnson of this city, acting commander-in-chief of the G. A. R., is a candidate for election as commander-in-chief at the coming national encampment in Philadelphia. The national board of administration last April failed to fill the vacancy caused by the death of General Sexton, one-half the members favoring Senior Vice Commander Johnson and the other half General John C. Black.

Fully Advised Regarding Storm

Plattsburg, N. Y., Aug. 12.—The president has been kept fully advised regarding the terrific storm in Porto Rico and had directed that everything possible be done to relieve the distress in the island. President and Mrs. McKinley went driving yesterday afternoon, the president holding the reins as usual.

THIRTY-FIRST REGIMENT

Practically Completed at Fort Thomas.

Cincinnati, Aug. 12.—The Thirty-first regiment is now practically full. There were only 20 men needed yesterday to reach the maximum and several times that number await examination. There have been more rejected than accepted in recruiting this regiment. One company is made up of the fighting frontiers from Clay county, Ky. These men are not only hardy, but fine marksmen and they soon become well drilled. Major Elijah J. Halford of Atlanta, quartermaster of the department of the gulf, arrived yesterday with \$40,000 and paid off the Thirty-first regiment and the regulars at Fort Thomas, Ky.

Mayor Harrison Invited to Kentucky

Chicago, Aug. 12.—Judge Ogdon of New Orleans, Mayor Harrison's father-in-law, left last night for Huron River, Mich., where the mayor is spending his vacation, bearing an invitation from the Democratic committee of Kentucky for the mayor to go to that state in September and accompany William J. San Francisco, Aug. 12.—A bulletin, telegraphed here from Victoria, B. C., says there has been renewed fighting in Samoa. No details are given.

Business and Labor Hurt

If the \$445,000,000 worth of goods imported in 1898 that could have been manufactured here had been so made, \$908,000,000 of capital would have found profitable investment, and \$244,000,000 worth of raw material would have been required for the work. But the fear of free trade was hanging over the country. Our manufacturers did not know how cheaply they would have to sell their goods and consequently could not afford to run the risk of making them.

A YOUNG MOTHER

flushed with perfect health and strength, said, as she exhibited with pride her baby, "I must confess that my present health and the almost phenomenal development and good health of baby are due to the use of Pabst Malt Extract, The 'Best' Tonic. The necessity of feeding the child was such a tax on me at first that I became nervous, weak and exhausted. 'Best' Tonic was recommended. I took it and began to build at once. Baby began to show the effects within a week. I continued its use for months, until I went out into the country and neglected to take my tonic with me. I lost fifteen pounds in six weeks, and could scarcely feed baby. Since returning, I have again been taking 'Best' Tonic. I have gained six pounds and the little one is again progressing. Just think, he is nine months old, weighs 82 pounds, and I have not weaned him yet."

Let every mother apply this to her own experience and at least give the 'Best' Tonic a trial, if not for her own sake, for that of her child. Let her provide for baby as nature says every mother should.

To produce magnificent children was a supreme aim among the Greeks, those lovers of perfection in those rigid athletic exercises which aggrandized the glory of the body. For without a perfect body how can a babe at once begin to fight the battle of existence with conquering energy, or how derive those elements of hardiness, pure blood, calm nerves and bright mind, if the mother is not prepared, helped and insured against too great weakness, given the

right sustenance, and kept in a position of ease, happy thought, pleasing sensations and good sound slumber? Hundreds of children are puny, slow, with nervous supine motions and untelligent countenances, because the mother was forced to put all her energies into the power to bear them, without the strength besides to give them the vital flow of sturdy health. Habitual use of Pabst Malt Extract, The 'Best' Tonic, makes rich and pure blood, strengthens the bones and muscles, and adds to the development of the perfect form, a glowing vitality in the mother, which aids her not only to bear, but build.

I have seen very good results from the prolonged use of your Malt Extract, The 'Best' Tonic, and I find the preparation very beneficial, especially for nursing women.

THE CRY OF THE DREAMER.

I am tired of planning and toiling
In the crowded hives of men,
Heart weary of building and appling
And spilling and building again,
And I long for the dear old river
Where I dreamed my youth away,
For a dreamer lives forever,
And a toiler dies in a day.

I am sick of the showy seeming,
Of a life that is half a lie,
Of the faces lined with scheming
In the throng that hurries by,
From the sleepless thoughts I endeavor
I would give the children play—
For a dreamer lives forever,
And a toiler dies in a day.

I can feel no pride, but pity,
For the burdens the rich endure;
There is nothing sweet in the city
But the patient lives of the poor,
Oh, the little hands too skillful,
And the child mind choked with weal,
The daughter's heart grown willful,
And the father's heart that bleeds!

No, no; from the street's rude bustle,
From the trophies from mart and stage,
I would fly to the woods' low rustic
And the meadow's kindly page,
Let us dream as of yore by the river,
And be loved for the dream alone,
For the dreamer lives forever,
But the toiler dies in a day.

IT RAINED METEORS.

A Wonderful Display That Was Seen by Only One Man.

"Strange the papers didn't say anything about the great seismic disturbance and shower of meteors the other day," remarked Walter Scott Hobart at the club one afternoon. "It came off while I was down at my place at San Mateo. You know I have been taking boxing lessons for some months to reduce flesh, and it has worked like a charm. It's good sport, too, and, though I say it myself, I'm pretty clever with the gloves now. Had an instructor come down three times a week, and we had some rattling bouts. I can tell you.

"But it got to be rather slow after awhile. The man had taught me about all he knew. I was up to all his tricks, and he simply couldn't touch me. I saw I'd have to get a more scientific instructor, and told the man as much one afternoon. I broke it to him gently, of course, but I let him see I knew he wasn't in my class. The poor fellow was all broken up, and I felt so sorry for him that I said we'd put on the gloves anyway for one last go.

"It was then that the extraordinary cosmic phenomena I mentioned took place. I had just put up my hands and was getting ready to show him a trick or two when the world seemed to bump into something hard and jarred me clean off my feet. At the same time it ran into a rain of meteors that made the most brilliant pyrotechnic display I have ever witnessed.

"Somehow it didn't seem to affect the professor much, for when I recovered from my surprise he was bathing my head and murmuring something to the effect that he 'guessed the young guy wouldn't be so gay now for awhile.' I have decided to keep him on until the cosmogony gets a little more settled."—San Francisco Argonaut.

Rather Adhesive.

"What a stinky fellow old Hardrocks is! By George, I'd hate to be built that way."

"What makes you think he is stinky?"

"I don't think it. He proves it every day! Do you know that old curmudgeon is so stinky that he goes out to lunch early, before his appetite comes on, so he can save money? It's a fact. I've been watching him."—Chicago Times-Herald.

Its Disadvantage.

"I don't value success in life as highly as I used to."

"Why not?"

"After people have won fame they have nothing to look forward to."—Chicago Record.

It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at W. F. Peter's drugstore. Every bottle guaranteed.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.

Snakes Charm and Kill a Horse.

Abram Robeson near Grantsburg, Ind., while hunting a stray horse which had been missing for two days noticed a large black snake, which retreated toward a cave formed by an overhanging ledge of rocks in one of the high bluffs surrounding his pasture field. His horse was found lying in this cave, but covered by what looked to him like a mountain of snakes, so numerous were the reptiles. Robeson fled to his house and secured his shotgun, with which he returned and opened fire until his cartridges were exhausted. After the battle he counted the bodies of 413 snakes lying around and over the body of his horse, which was dead, while many reptiles escaped in a wounded condition. He believes that his horse, which was a magnificent animal, weighing 1,000 or more pounds, had been charmed by the reptiles so that he was powerless to escape.

His Mistake.

A parrot, in a remote English country district, escaped from its cage and settled on the roof of a laborer's cottage. When it had been there a little time, the laborer caught sight of it. He had never seen such a thing before, and after much gazing in admiration at the bird with its curious beak and beautiful plumage he fetched a ladder and climbed up it with a view of securing so great a prize. When his head reached the level of the top of the roof, the parrot dropped a wing at him and said, "What d'ye want?"

Very much taken back, the laborer politely touched his cap and replied, "I beg your pardon, sir, I thought you were a bird!"

That Second Chapter.

The new pastor was preaching his first sermon. In the middle of it he stopped abruptly and asked:

"How many of you have read the Bible?"

Fifty hands went up.

"Good," said the pastor. "Now, how many of you have read the second chapter of Jude?"

Twenty-five hands went up.

A wan smile overspread the divine's face.

"That's also good; but when you go home read that chapter again, and you will doubtless learn something to your interest."

There is only one chapter in the book of Jude.—Guthrie (O. T.) Leader.

Follow the Good Example.

Maine's 38,000 Republican plurality for governor, her pluralities for Republican congressmen, ranging from 8,000 to 10,000, exceed anything ever known in the history of the state. There is a direct relation between such pluralities and the ignorance, incompetency and un-American policy of the present Democratic administration. Other states will do likewise.

The Livory of Democracy.

The livory of Democratic tariff reform.—President Cleveland's Letter to Congressmen Cutchins.

Does this mean that tariff reformers wear the flunky livory of John Bull?

The boys they twigged his calves And covered him with snow.

How these livoried tariff reformers will be covered with snow in November—calves, liveries and all!

Spanish-American War Panorama is one of the war books which is likely to be in continuous demand. It is a panoramic record of the triumph of Yankee Doodle. The eagle flaps his wings on every page, and "Old Glory" waves around and above every scene.

Prominent officers connected with the war are here portrayed, as well as many of the "men behind the guns." Military life is pictured to the eye from recruiting to guard mount and skirmish line. Nor is the ludicrous omitted. The company cook receives the attention due to his importance; the mess is shown; cavalry scenes are given; the hospital arrangements are depicted; the heroines of the Red Cross service are displayed; street scenes in Havana, Santiago and elsewhere are unraveled, the new citizens or subjects (which are they?) of Uncle Sam, appear and disappear as the scenes are turned.

In a word, the gazer visits the new localities and sees the tumultuous new life, without the risk or expense of a sea voyage.

THE CLIMATE OF CHICAGO.

How Could the Poor Frenchman Tell What It Could Do?

While in Chicago M. de Monvel, the French artist, heard one story that puzzled him. It was told at a dinner party, and he smiled just as if he understood it. That night he thought it over, but the more he thought the less he comprehended it. Finally a fellow artist who had heard the story repeated it, drew pictures of it, and then a light broke on M. de Monvel, and he laughed.

"Ah, we Frenchmen are stupid when compared with the Americans!" he exclaimed. "I shall tell that story, and it will make Paris laugh."

The little tale was about a French carpenter who bought a saw from a Chicago manufacturer who made a specialty of advertising. Engraved on the tool was the assurance that "day in and day out this saw will wear longer than any other on the market." The Frenchman read the advertisement, and the day he bought the saw he put it carefully away. The next day he used it and left it out of doors in the pouring rain. A neighbor remonstrated with him for his carelessness, and he picked up the saw, pointed to its inscription and exclaimed:

"Does not le ciel—no, I mean le saw—say in four in ten four out—one day in and one day out—and zis will wear longer than all zis saws? I have left him in one day. Now I follow direct—the one—I leave him out one day. Ze climate of She-la-go—how can I tell what zhe will do?"—Chicago Inter Ocean.

LOW FARE TO PHILADELPHIA.

Excursion via Pennsylvania Lines for National G. A. R. Encampment.

The thirty-third National Encampment and Reunion of the Grand Army of the Republic will be held at Philadelphia September 12th to 18th inclusive. For this event special excursion tickets will be sold to Philadelphia via Pennsylvania Lines September 1st, 8d, 15d and 22d inclusive.

Three forms of tickets will be on sale at special reduced fares, which will be as cheap over the Pennsylvania Route as over any other line.

One cent per mile, except where the one way rate is \$1.00 or less, will be the rate from ticket stations on the Pennsylvania System west of Pittsburgh. Tickets sold at exceptionally low fare will be good for continuous journey in both directions.

Tickets via Baltimore and Washington will be sold at the lowest one-way rate, and will be good for stop-over at Baltimore and the National Capital, and also valid for an additional stop-over in each direction east of Pittsburgh.

Tickets via diverse routes (going over one direct route and returning another) will be sold at the single fare rate plus \$2. These tickets will also be good for stop-overs at Baltimore and Washington, in addition to one stop-over in each direction east of Pittsburgh.

The return limit on all excursion tickets via Pennsylvania Lines will be September 12th, which may be extended to September 30th inclusive, by depositing tickets with the Joint Agent at Philadelphia.

All Pennsylvania Lines lead to Philadelphia, and principal points on this system have daily through sleeping car and through coach service to the Quaker City, enabling passengers to go through without changing cars. The route is via Pittsburgh and Harrisburg and through the most interesting portions of Pennsylvania.

Philadelphia is reached by daylight by all trains over the Pennsylvania Route from points west of Pittsburgh. This gives visitors an opportunity to select quarters and get located before night sets in.

The Pennsylvania station at Philadelphia is located in the heart of that city, opposite the great City Hall, and convenient to the hotel, boarding house and business and residential portions.

For special information about rates, time of trains and other advantages offered by the Pennsylvania Lines please apply to local passenger and ticket agents, or address F. Van Dusen, Chief Assistant General Passenger Agent, Pittsburg, Pa.

RETURN LIMIT EXTENDED.

Seashore Excursion Tickets via Pennsylvania Lines Good Fifteen Days Returning.

The return limit on the low fare excursion tickets to Atlantic City, Cape May, Anglesea, Avalon, Holy Beach, Ocean City, Sea Isle City, Wildwood, New Jersey, Rehoboth, Del., and Ocean City, Md., to be sold August 10th, from principal stations on the Pennsylvania Lines will be fifteen days including days of purchase. This is longer limit than that granted on similar tickets sold in previous seasons, and will be ample for a delightful sojourn at the seaside. The extreme return limit will be August 24th, which will allow a week after returning home to prepare for school and other duties which begin with the opening of September.

The date of the excursion, August 10th, is the most convenient for an outing. Business is quiet at this season, crops are gathered, and office, store and farm duties are not exacting. The thermometer usually reaches the highest point about this time. It will be a pleasing diversion to spend week's vacation in the invigorating ocean breeze and experience the unlimited pleasure at the command of the summer idler by the sea.

The round trip rate from Seymour will be \$15. Tickets of this exceptional low rate may be secured at either of the ten resorts mentioned above, which are the most attractive along the Atlantic coast. For illustrated descriptive matter about them apply to O. B. Sappington, local ticket agent of the Pennsylvania Lines, who will also furnish information about time of trains, etc.

There Are Many Cool Retreats.

On the line or reached via Union Pacific, "The Overland Route." You will find Fishing in Rocky Mountain streams. Hunting in Wyoming. Bathing in Great Salt Lake. Curative Waters in Guyard and Halley Hot Springs, Utah. Hot Springs and Soda Springs, Idaho. WINE OF CARDUI

Woman Knows Woman.

Zurich, Kan., Jan. 31.
I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Bolvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it? They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

M. Stilwell, the insurance man who

gy belonging to Allen Crane. Mr. Crane

A radical change is being made in
the appearance of the baggage, mail

eliminated when the platforms are re-

numbers from locomotive tenders so
that in case of emergency, those of the
same style will be interchangeable.
